Amazing, but true

Proteins, the building blocks of our bodies, are made of amino acids. Usually, only animal products such as meat, eggs and dairy contain all of the essential amino acids. Amazingly, Moringa leaves also contain them all.

Vitamin A acts as a shield against diseases of the eyes, skin and heart, diarrhea, and many other ailments. Carrots are very high in vitamin A, but Moringa leaves are even higher.

Vitamin C strengthens our immune system and fights infectious diseases including colds and flu. Citrus fruits such as oranges and lemons are full of vitamin C. Moringa leaves have even more.

Calcium builds strong bones and teeth, and helps prevent osteoporosis. Milk provides a lot of calcium, but Moringa leaves provide even more.

Calcium builds strong bones and teeth, and helps prevent osteoporosis. Milk provides a lot of calcium, but Moringa leaves provide even more.

Now modern science is proving that these tiny leaves are packed with incredible nutrition that can strengthen our bodies and prevent many diseases.

Be incredible!

- Plant a Moringa tree.
- Include Moringa leaf powder in your food.
- Share this information with people who can help make our world a healthier place.

Trees for Life empowers people by demonstrating that in helping each other, we can unleash extraordinary power that impacts our lives.

These figures reflect gram-for-gram comparisons with Moringa leaves.*

Easy to grow:

- From seeds or cuttings
- Even in marginal soils
- Very little care needed
- Very little water required
- Produce fruits & leaves within 8 months

(Plant away from homes, as they tend to attract undesirable caterpillars.)

Easy to use:

- Add fresh or dried leaves to any dish
- Dry leaves (in shade) and store
